Product Description

Scag Aerstorm

THE NEXT GENERATION OF PRODUCTIVITY

Aeration is vitally important for healthy turf, and it's also an opportunity to expand your services. A new tool to tackle aeration with more efficiency, the stand-on AerStorm[™] aerator allows you to get more done than ever before. Designed and engineered for long-lasting durability, improved productivity and all-day comfort, it's time to take on your next challenge with the next generation of aeration.

Featuring a simple and intuitive depth selection pin with easy-grip rubber knob, select aerating depths of 1" to 4" in 1/2" increments to meet the needs of each specific property. Hydraulic tine engagement, via a convenient foot-activated switch, allows you to keep your hands on the steering controls for maximum productivity and safety. Plus, a tine activation switch on the instrument panel prevents accidental engagement or disengagement while working or transporting.
