Product Description

STIHL GTA 26 59" Extension

The 59-inch extension shaft for the STIHL GTA 26 handheld battery-powered garden pruner attaches easily without the use of tools and features a soft grip for ergonomic handling. Extending a user's reach by nearly five feet for those hard-to-reach branches, the extension shaft also features a branch hook, ideal for pulling down smaller branches suspended in the tree canopy. This lightweight and well-balanced extension shaft is engineered to take your handheld pruning to the next level.
