Product Description

Stihl KMA 80R KombiMotor Multi-Task Tool

The battery-powered KMA 135 R KombiMotor delivers truly professional performance on par with gas-powered products with reduced noise and zero exhaust emissions. With over a dozen optional attachments, the KMA 135 R provides you with the ability to tackle a range of landscaping jobs without loading the trailer with a pile of tools. It is easy to operate and has a variable-speed trigger with three performance levels to optimize performance and run time. The onboard battery slot can support both an onboard battery or a backpack battery for even longer run times. Its quiet operation provides flexibility and extended working hours during early mornings and evenings, and it is durably constructed with a weather-resistant design.

Features
